

Direct Membrane Valve - D900 series

Features:

- All iron components are fusion epoxy bonded for corrosion resistance.
- Easy maintenance without removal from the main line.
- Nylon reinforced diaphragm for long term service.
- Drip tight shut off.
- Ductile iron bodies for higher strength and durability.
- Various pilots and accessories available for configuration into many different applications.

General Applications:

For general water supply, fire fighting, and irrigation system.

Technical Data:

Size Range: DN 50-200mm

Pressure rating:

PN10 ,PN16.

Max. temperature Range:

-10°C to 80°C

D900-is a direct membrane operation valve, Ductile Iron GJS500-7 body/ bonnet, EPDM nylon reinforced diaphragm

D900-Main Valve

Parts List & Material

No.	Part Name	Material	Standard
1	Body	Ductile Iron	EN GJS500-7
2	Membrane	Nylon Reinforced Rubber	EPDM + Nylon
3	Bonnet	Ductile Iron	EN GJS 500-7
4	Plug	Stainless Steel	AISI 304
5	Bolt	Stainless Steel	AISI 304
6	Washer	Stainless Steel	AISI 304

Dimension:

Unit: mm
